

Community Service Project

WHAT IS THE COMMUNITY SERVICE PROJECT?

The Community Service Project provides you the opportunity to give back to the community, something that many of us do without the incentive of recognition, build your resume, and learn about issues and needs of the community at large. Projects can be one day or on going events. If you have any questions just come to Career Services.

WHERE CAN I WORK?

If you are interested in participating, please see the Opportunities Chart. This list is not exclusive, as you can work with any agency needing volunteers as long as you complete and return a signed Intent to Participate Form and keep track of your hours. You must return the verified hours log to receive recognition for your work.

RECOGNITION FOR YOUR COMMUNITY SERVICE WORK

This is a Certificate Program - Beginning Fall 2008, students earning 35, 70, or 105 hours of community service work will achieve a *general* certificate, an *excellence* certificate, and an *outstanding achievement* certificate respectively.

Certificates will be awarded to graduating 3Ls, while qualifying 1Ls and 2Ls will be invited to the celebration, and encouraged to continue their good work. At graduation, the College will list on the commencement program that you received a community service certificate.

Thank You for Your Interest in the Community Service Project!!
We Look Forward to Working with You!

Community Service – Intent to Participate
