

## **Requesting review/examination copies of textbooks**

Review/examination copies are print or digital copies of a textbook you are considering. Publishers will ask for the name of the course, anticipated enrollment, semester, office address, and university information. Many require shipment to be to your university address.

Desk copies (to keep after adoption of text) are available from some publishers after a submitted textbook adoption.

Please check the publisher's policy if linked, as policies change often.
