## AI and Tax LAW #7931

### Professor Mindy Herzfeld

Office: 374

Phone: 352-273-0932

Office Hours: 2 hours TBD through Zoom or by appointment, scheduled by email

A. Course Materials: The required reading/video links/tools to be utilized can be accessed through links provided below or are posted on Canvas.

B. Topics: The topics for class, along with the assigned readings are described in the pages that follow.

C. Grade: Your grade will be based on the following:

(1) Daily Assignments (25% of grade) (every day you will be asked to submit 2 questions related to the readings, for discussion topics for class)

(2) AI Tool Exercises (60% of grade) There are three exercises using different AI tools that you will be required to submit as part of the course, discussed in greater detail below. Half of your grade (30%) will be based solely based on submitting something on deadline during the week of the course. The other half (30% of the grade) will be awarded based on submission of final work product on January 29.

(3) Crypto fact pattern (15% of grade), due January 29, 2021. (Note: in lieu of crypto fact pattern, other types of work product may also acceptable upon discussion with and agreement by the professor, such as developing a model/analytic tool, developing a marketing plan for lawfirm for AI use.

Letter Grade	Point Equivalent
A (Excellent)	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C (Satisfactory)	2.0
C-	1.67
D+	1.33
D (Poor)	1.0
D-	0.67
E (Failure)	0.0

D. Final Essay. Essay should be between 2000-4000 words (including footnote text other than citations).

Essays will be graded on the following metrics (5 points each):

- Clarity of writing
- Effective utilization of source materials
- **Timeliness**
- Keeping within word limit requirements and proper citation. Bluebook citation required.
- Originality

E. Reading Assignments. You should be prepared to discuss the reading assignment for each class.

F. Attendance. Per ABA requirements, you will be expected to attend a minimum of 80 percent of all classes. Because this is a compressed course, attendance at each class is required and absence is reflected in the grading, without an excused absence from Student Affairs.

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

#### G. Class Preparation

Because this is a compressed course, you should be prepared to spend several hours preparation time before the course begins. During the week of the course, you should be prepared to spend several hours a day that week reading and preparing assignments. In total, you can expect to spend approximately 30 hours in preparation for class, including reading and working on assigned exercises utilizing AI tools.

H. Guest Lecturers. There will be a number of guest lectures during the week as indicated below. They are giving of their time partly in order to learn from you. You will need to be prepared with assignments (readings and AI tools) for discussion with them.

#### Summary of the Course

Artificial Intelligence is one of the most exciting and important developments of our time. Machine learning has and will continue to alter the way we conduct business and our lives and is transforming the nature of work. In law, artificial intelligence is raising both fundamental questions about how law is made and the role of machines in the analysis of contracts and statutes, the evolution of law, and the role of machines in legal decisions. In the legal practice, artificial intelligence is introducing radical changes into the lawyer's role, how information is processed and how data is analyzed, and in the ability of lawyer's to charge for their skills and expertise. All of these changes are evident in the field of tax law as well.

This course will consider the application of artificial intelligence and the challenges it poses to legal thought, tax law in particular. It also considers some of the practical ramifications of those changes for the daily practice of tax law.

Assigned readings are noted below.

#### Objectives of the course

This course has a number of objectives:

1. To understand the term artificial intelligence;
2. To explore the applications of artificial intelligence to the law and the legal profession and the opportunities and challenges it poses to each and become familiar with the academic literature in the field;

3. To appreciate the unique opportunities and challenges AI offers in the field of tax law and to the tax profession;
4. To become familiar with AI tools that tax practitioners are utilizing in daily practice;
5. To explore an area of individual interest related to AI and tax.

### **Required Course Materials**

All required readings are posted in canvas or linked to in the syllabus.

1. **Reference Materials**. Additional reference materials are noted below and for each class.
2. **Office Hours**. I am available for in-person or phone consultations. These can be scheduled by email at [herzfeld@law.ufl.edu](mailto:herzfeld@law.ufl.edu).

**This is an all-virtual course. Students may not take, circulate, or post photos or videos of classroom discussions. Students failing to follow this rule will be referred to the College of Law Honor Code Council and the University's Office of Student Conduct and Conflict Resolution.**

## University Policy on Accommodating Students with Disabilities:

Students requesting accommodation for disabilities must first register with the Dean of Students Office (<http://www.dso.ufl.edu/drc/>). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Office of Student Affairs when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive, therefore, students should

contact the office as soon as possible in the term for which they are seeking accommodations.

University Policy on Academic Misconduct:

Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at <http://www.dso.ufl.edu/students.php>.

\*\*Netiquette: Communication Courtesy: All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats.
