International Tax II
(Taxation of Outbound Transactions)

Professor Mindy Herzfeld

University of Florida Levin College of Law
Graduate Tax Program

Syllabus

Spring Semester 2021
A. **Course Materials:** Access to an Internal Revenue Code and Treasury Regulations is required and must be brought to each class. Hard copies are highly recommended.

Each class assignment will include reading assignments from primary sources (Code, regulations, or possibly US Model Treaty). Primary source readings are mandatory. Each class assignment will also note secondary source readings from both International Taxation in a Nutshell (12th edition) and from Bittker & Lokken, Fundamentals of International Taxation (2020-2021 ed.). [The most recent edition has been ordered to the bookstore and I will also leave my copy on reserve in the library. Note that prior editions (used) that are available through online booksellers may not reflect current law.] I am indifferent as to which source you choose; the Nutshell is shorter and the Bittker & Lokken treatise more comprehensive. You may also wish to supplement your knowledge with reading from BNA tax portfolios, which are organized by subject matter. If you are interested in additional reading and are having trouble finding out which portfolio is most on point, feel free to ask me.

B. **Topics:** The topics for class, along with the assigned readings, are described in the pages that follow.

C. **Grade:** Your grade will be based 50% on the exam to be administered at the end of class. The other 50% of the grade will be based on the problem sets you will be assigned to submit over the course of the semester, along with your classroom participation. **Note that you submissions will not be graded on correctness on the response, only for submitting something a response to the questions in timely fashion.**

E. Reading Assignments & Problem Sets. This course will meet for the first 6 weeks of the semester, on Tuesdays and Wednesdays from 1:00PM -3:15PM. You should be prepared to discuss the assigned reading and/or problem set in each class.

The readings or assigned problems are expected to take you approximately 4 hours for each class session.

For the first 3 weeks, we will be meeting in person and will be going through an overview of the material, Code and regulations. For the second 3 weeks, we will be on a virtual platform and will be going through problem sets. Some of the problem sets will be presented by guest lecturers. In the first 3 weeks, you will be assigned reading but no problem sets. In the second 3 weeks, you will be assigned problem sets, to submit prior to each class. The problem sets will be graded for submission only (i.e., you will not be graded on accuracy of answers).

F. Guest Lecturers. Our learning will be enhanced by guest presentations from practitioners from law firms and Big4 accounting firms, who will expose you to fact patterns that they are confronting in their daily practice.
