COURSE OBJECTIVES AND GOALS:

This week-long, 1-credit course is designed to introduce students to the art and craft of prosecution. Prosecutors must learn to wield the power of the state ethically and deliberatively. Students will become familiar with the practices and procedures of prosecutors in the 8th Judicial Circuit so that they are prepared to hit the ground running when the Prosecution Clinic begins. Students will trace the life of a criminal case, learn basic case preparation, and discuss the challenges they will face in the courtroom and in the criminal justice system more broadly. Students will develop insight into the strategy and logic of preparing and presenting cases in this arena.

In this compressed course, students will also tackle the multiplex ethical issues that define prosecutors’ fundamental duty to seek justice. Selected readings and recordings will explore the institutional strengths and weaknesses of the players in the criminal justice system, and the impact of race, gender, and class on the quality of justice.

Finally, students will begin to think about or refine their professional identity, recognizing a criminal justice system in crisis, and becoming motivated to do something about it. Prosecutors have enormous power to make real and lasting changes and this introductory course will challenge students to think critically about how to solve problems in this system.

LEARNING OUTCOMES:

At the conclusion of this course, students should be able to:

- Demonstrate an understanding of the life of a criminal case—from investigation and charging to interviewing, motion-writing, jury selection and argument;
- Negotiate with opposing counsel in the spirit of a just resolution of cases, with an understanding of Adverse Childhood Experiences (ACEs) and Restorative Justice alternatives to prosecution;
- Identify and work to address brokenness within the criminal justice system including bail reform, prosecution of misdemeanors, implicit bias, police training and resources, extreme prison sentences, racism and over-criminalization;
- Make timely and appropriate legal objections;
- Develop or refine a professional identity which reflects the core values of the legal profession and embraces ethical problem-solving in the criminal justice arena.

ABA OUT-OF-CLASS HOURS REQUIREMENTS:

ABA Standard 310 requires that students devote 120 minutes to out-of-class preparation for every “classroom hour” of in-class instruction. Our weekly class time is approximately 17 hours in length, requiring at least 34 hours of preparation outside of class including reading the assigned materials and completing the at-home exercises and assignments. Please note that due to the compressed nature of this course, the bulk of your preparation must be done in the days prior to the start of class.

COMMUNICATION COURTESY AND CIVILITY:

Please follow rules of common courtesy in all email messages and class discussions. *Turn off your cell phone during class.* I reserve the right to lower your final grade if you engage in behavior that disrupts the learning environment for your classmates.

INTERNET USE DURING CLASS:

Use of the Internet during class is not permitted, unless directed by me. You may not check social media sites, may not check email (even Clinic or career related emails), and may not check news sites. Think of class as an important client meeting, and schedule your emailing needs accordingly. Your internet use, even for a noble purpose, is a violation of the standards of professionalism. If you have concerns about this policy, please feel free to discuss them with me.

COURSE SCHEDULE OF TOPICS AND ASSIGNMENTS:

This syllabus is offered as a guide to the direction of the course. Our pace will depend in part on the level of interest and the level of difficulty of each section and is subject to change. Specific assignments and supplemental reading may be announced in class and/or in Canvas.
